Dil Ka Rishta (After profile creation)

Profile Verification (For Team)

- Profile is not fully visible immediately after creation.
- Customer Relations team screens every new or modified profile.
- During screening, the profile is hidden from search results and match lists entirely. Only the profile owner can see their own profile in a limited view showing essential information (age, height, marital status, city, education).
- If screening is rejected, the user receives a notification with the rejection reason and a "Resubmit" option.
- Estimated screening time is displayed to the user: "Under review, usually within XX hours."
- Once approved, the full profile becomes visible to all members.
- A unique profile ID is generated for every profile. Format: alphanumeric, 8–10 characters. The ID is visible in the profile.

Navigation Layout (Basic)

Phone

- Tabs are placed vertically in a collapsible sidebar (hamburger menu).
- Chat icon is always visible with a badge showing unread message count and pending interest count.

Tablet

- Hybrid layout: collapsible sidebar for tabs, top bar for search and chat icon.

Desktop

- Tabs are placed horizontally at the top center.
- Chat dialog box is always opened in Matches Tab, Inbox Tab at left side.
- When the user navigates to another tab while a chat is open, the chat box minimizes to a floating bubble and persists until closed.

Chat Box

- Shows Accepted Members, Shortlists, and Matches who are online.
- Displays unread message count per conversation.
- Premium members can initiate chats. Free members see a disabled chat button with an upgrade prompt.
- Messages are stored for 12 months. Users can delete individual conversations.

1. My Account Tab

Profile Management, Partner Preferences, and Privacy Settings and Settings are separate sub-tabs under the Account tab.

1.1 Profile Management Tab

This is a single page with editable fields. Core fields require Customer Relations review.

- Edit Profile: Most user information can be changed (current city, education, profession, lifestyle habits, family background). Exceptions requiring Customer Relations review: date of birth, gender, marital status, religion.
- Display Name: Options are full name, first name + last initial (e.g., "Monika S"), or custom username. Controlled via Privacy Options.
- Photos: Free users can upload up to 5 photos. Premium users can upload up to 20 photos. Accepted formats: jpg, jpeg, png, webp. Maximum file size: 5 MB per photo. Users can reorder photos and select a primary photo. Photo privacy option: visible to all members, or visible only to contacted and accepted members.
- Hobbies & Interests: Can be changed or added from a predefined list. A free-text "Other" field is available for hobbies not listed. The "Other" field is subject to review.
- Horoscope / Kundli: Premium feature. Privacy setting: visible to all members, visible only to accepted or interested members, or visible only to members the user approves. The privacy setting itself is available to all users. Only the horoscope upload and matching report are premium.

1.2 Partner Preferences Tab

This is a separate page/tab under My Account. All fields use dropdowns selectable options. No free-text input.

Editable fields:

- Age range
- Height range
- Marital status
- Religion
- Community / Caste (searchable dropdown)
- Mother tongue
- Country / City
- Education
- Profession
- Income range
- Lifestyle (diet, smoking, drinking)

Each preference can be marked as "Must-have" or "Flexible."

If the user sets too many "Must-have" fields, a warning is displayed: "Your must-have criteria are very narrow. You may see fewer matches."

1.3 Privacy and Safety Settings Tab

All items are listed as separate entries under Privacy and Safety Settings.

These items are in a list view.

1. **Hide Profile:** Temporarily hides profile from all members. Hiding is all-or-nothing; it is not possible to hide from specific members only.
2. **Privacy Options:**
    - Display Name: Full name / First name + last initial / Custom username.
    - Photo Privacy: Visible to all members / Visible only to contacted and accepted members.
    - Contact Details Visibility (Premium): The profile owner controls who can see their contact details. Options: visible to all premium members / visible only to accepted premium members. The viewer must be a premium member. The profile owner's tier does not restrict this setting.
    - Voice / Video Call Permissions (Premium): Who can call: accepted members only (default) / all premium members. Preferred call hours can be set. Free members cannot call premium members unless the premium member explicitly allows it.
    - Horoscope Visibility (Premium): Visible to all members / Visible only to accepted or interested members / Visible only to members the user approves.
3. **Block Member:** Prevents a specific member from viewing or contacting the user.
4. **Report Misuse:** For false information, fake or obscene photos, or abusive messages. Reporting alerts the Customer Relations Team. The reported profile is hidden from the reporter immediately. The reporter receives a confirmation notification. The reported member is notified only if the report is upheld.
5. **Chat Status:** Options are Online, Invisible (appear offline while chatting with selected members), or Offline. Setting to Offline reduces the chance of being contacted.

1.4 General Settings Tab

Placement

General Settings is a sub-page under the **My Account** tab, placed alongside Profile Management, Partner Preferences, and Privacy and Safety Settings. It is displayed as a list view after tapping the "General Settings" entry.

Account Security

- **Change Password**: Standard account security feature.

- **Registered Phone Number**: View and change the registered phone number.
- **Registered Email**: View and change (requires verification).
- **Two-Factor Authentication (2FA)**: Optional. Enable via SMS or email.
- **Login History and Active Sessions**: View devices currently logged in and log out remotely.

App Experience

- **Notification Preferences**: Control push, email, and SMS notifications. Choose which types to receive (new matches, interests, messages, profile views).
- **Language**: Choose app display language (English, Assamese, Hindi, Tamil, Telugu, Marathi, Bengali, Gujarati, Urdu).
- **Dark Mode**: Toggle on/off.

Support and About

- **Help and Support**: Link to FAQs, contact customer service, or report a problem.
- **Terms of Service and Privacy Policy**: Link to legal documents.
- **App Version**: Display current version number.
- **About Us**: Brief introduction to the app.

Account Management

- **Data Download**: Request a copy of personal data.
- **Account Deletion**: Permanent account deletion. Must be clearly distinguished from "Hide Profile" in Privacy Settings. Requires confirmation step.

Design Rule

Privacy Settings manages "who can see me, who can contact me" (photo visibility, phone number visibility, chat status). General Settings manages "how I use this app" (password, language, notifications etc). Keep them separate so each section's purpose stays clear.

2. Matches Tab

All bold points are separate horizontal tabs placed at the top center on desktop.

On phone, the tab row is scrollable.

A Refine Search Box appears on the Matches tab. It filters by photo availability, mother tongue, country, state, city, education, and profession.

1. **Preferred Matches**: Exactly match all partner preferences.
2. **Broader Matches:** Match some preferences but fall outside others.

3. **Reverse Matches:** Members whose preferences match the user's profile. A tooltip explains this in one line.
4. **Near Me:** Finds matches in the user's current city. Requires location permission. If permission is denied, the tab displays a prompt to enable location or enter a city manually.

Each match card includes a one-line explanation: "Why am I seeing this match?" (e.g., "Matches your age and education preferences").

Matches are refreshed daily. Users can pull to refresh manually. The list uses infinite scroll.

3. Search Tab

All bold points are separate horizontal Tabs placed at the top center on desktop.

On phone, the tab row is scrollable vertically.

1. **Basic Search:** Age, height, marital status, religion, location.
2. **Advanced Search:** Education, profession, income, lifestyle habits, and a separate "Special Cases" filter for physically or mentally challenged members. The "Special Cases" filter uses respectful language and is not bundled with other filters.
3. **Saved Search:** Save/Star up to 5 search sets. Each saved search can be deleted.
4. **Search History:** A list of recent searches (last 20) is available below Saved Search.
5. **Who is Online:** Filters for currently active members.

Search results can be sorted by relevance, newest first, or recently active first. Keyword search in the "About Me" field is supported.

4. Inbox Tab

All points are separate tabs under the main Inbox tab.

1. **Interests Received:** Members who expressed interest. Actions: Accept, Decline, Delete. Bulk actions are supported (select multiple, then accept/decline/delete).
2. **Filtered Out:** Interests from members not meeting the user's "My Filters" criteria. "My Filters" are defined in Partner Preferences under "Must-have" fields. A link to edit Partner Preferences is shown here.
3. **Requests Tab:** Photo requests and contact detail requests.
4. **Accepted Members List:** Members whose interests have been accepted by the user.
5. **Deleted Folder:** Declined, cancelled, and deleted interests.
6. **Chat Box:** Shows Accepted Members, Shortlists, and Matches who are online. Displays unread message count per conversation. Premium members can initiate chats. Free members see a disabled chat button with an upgrade prompt. Messages are stored for 12 months. Users can delete individual conversations.

Notification preferences button: Users can turn off email, SMS, or push notifications for specific folders (e.g., Filtered Out).

Dil ka Rishta Premium / Paid Features

Premium membership unlocks:

- Initiating chats (free members cannot initiate; they see a disabled button with an upgrade prompt).
- Initiating chats with more than 15 members per month (higher-tier premium model).
- Premium Interest (profile posted on recipient's wall or message board, plus email notification).
- SMS directly to member's mobile.
- Higher visibility in search results.
- Contact details access depends on membership tier and the profile owner's privacy settings. A comparison matrix is displayed at checkout.
- More than 5 photos require premium (up to 15/20 photos).
- Horoscope / Kundli Matching: Compares two users' kundlis and generates a compatibility report. Available to premium members only.

Premium tiers:

Two tiers are defined. Tier 1 includes chat initiation, Premium Interest, and higher visibility.

Tier 2 includes all Tier 1 features plus SMS, contact details access, and kundli matching. A side-by-side comparison table is shown at checkout.

Match Profile Card

1. Header (Photo & Identity)
Primary photo (if available), name (may be abbreviated as "Monika S"), age, height, city, profession. Tapping photo enlarges it. If the profile owner is a premium member, their badge appears here (that badge belongs to them, not to you).

2. Core Information Snippet
A compact grid showing religion, caste/community, mother tongue, education, profession, and income (if public). Read-only. Enough to judge basic compatibility at a glance.

3. About Me & Hobbies
A short preview of the "About Me" text written by the profile owner, along with selected hobbies and interests. Tapping expands to full text.

4. Photos
Thumbnails of all photos the other person has made public. If they have set photos to "visible only to contacted/accepted members," they will not appear here. Tap thumbnail to view full image.

5. Horoscope/Kundli
Visible only if the other party has set it to "public." Read-only. Free users cannot use the Kundli Matching tool.

6. Contact Area (Locked/Premium)
Phone number field displays as a **"Request Contact Details"** button. Tapping sends a request to the other person. They receive it in their Inbox "Requests" tab. You must wait for their approval before the number becomes visible. No direct viewing.

7. Action Buttons (Bottom of Card)

- **Express Interest** : Available. Free to send. The other person receives it in their Inbox and can Accept or Decline.
- **Chat** : Disabled or hidden. Displayed as a locked state with an "Upgrade to unlock" prompt. Free members cannot initiate chat.
- **Shortlist** : Available. Saves the profile for later.

8. Chat Box Presence
Can receive messages from accepted members, but cannot proactively start a conversation. Chat list shows Accepted Members, Shortlists, and Matches who are online, but the "initiate" button is restricted.
